Bridging Two Worlds
Martin Hoffman
Foreword by Omar Sharif
978-1-77140-199-9  |  USD 21.95  CAD 26.95  GBP 16.95
Hoffman managed to survive Auschwitz as a teenager; in post-war England, he discovered a talent for bridge and became a top professional player and author. This is a brutally honest account of his time in the concentration camps, and his struggle to establish a normal life despite his childhood experiences, and in the face of a crippling gambling addiction.

The classic introductory books on cardplay at bridge, covering all topics with clarity, skill and humor. More than fifty years after first publication, these books have been revised and updated by Barbara Seagram, one of North America’s best-known bridge teachers, to bring them into line with modern methods of play and bridge education.

Planning the Defense
Barbara Seagram & David Bird
978-1-77140-053-4  |  USD 19.95  CAD 24.95  GBP 15.95
Ten years after their award-winning Planning the Play of a Bridge Hand, Seagram & Bird tackle the hardest part of the game: defense. Using the same step-by-step approach, they guide the reader through the minefields of signaling, making a defensive plan and, above all, counting — points, tricks and distribution.

**Winning at Matchpoints**  
Bill Treble  
978-1-77140-058-9 | USD 19.95  CAD 24.95  GBP 15.95  
Most players would agree that matchpoints is harder than IMPs — it is certainly different. Yet many players approach the two forms of scoring in the same way. In this book, the author explains the differences in approach, the whys and wherefores of the right way to bid, play and defend at matchpoint scoring for optimum results.

**Useful Probability for Bridge Players**  
Julian Laderman  
978-1-77140-059-6 | USD 19.95  CAD 24.95  GBP 15.95  
The emphasis here is on ‘useful’ — the aspects of probability that every bridge player needs to know and understand. Topics include suit splits, suit combinations, percentage plays, the Principle of Restricted Choice, and even the application of probability to bidding decisions.

100 pairs of deals are shown — one described by David and the other by Larry. The deals look similar but an entirely different line of play is necessary to make each of the contracts. Only by clearly understanding the techniques involved will you be able to tackle such deals when you encounter them at the table.
